During the autumn season of 2021, Adventure Consultants will operate its seventeenth expedition to Cho Oyu via the normal route from Tibet. Of the world’s fourteen 8,000m peaks, Cho Oyu has the highest success rate.

This is due to a combination of factors including its easy access. Utilising land transport to the mountain cuts down on the logistical strain that hampers many teams in the Himalayas.

The normal route is not a technically difficult climb and access to the first mountain camp can be gained in trekking boots. However, it is important to recognise that at 8,188m/26,863ft, Cho Oyu is still the sixth highest peak on the planet and as such is a demanding undertaking in even the most ideal conditions.

**EXPEDITION OUTLINE**

The expedition commences in Kathmandu, the capital of the ancient kingdom of Nepal. From here we travel by plane to Lhasa where we are met by staff from the Tibetan Mountaineering Association. There is time for sightseeing in Lhasa and we begin to acclimatise as we are at a height of 3,650m/11,975ft. We then transfer to vehicles for the journey overland to the mountain.

We stop for a few nights along the way to assist acclimatisation, as the vehicles ultimately take us to 4,800m/15,750ft. From the road’s end, it is a 2-day trek with yaks carrying the luggage, leading us to the Base Camp at 5,650m/18,500ft. This is a spectacular spot set across from the famous Nangpa La Pass.

The route to Camp 1 follows the moraine up the main glacier and turns off to the east up a tributary glacier after a 2-hour hike. After a steep climb up the scree and snow, we are led to the camp at 6,400m/21,000ft. We also use a Camp 1.5 at 6,700m/22,000ft.

From Camp 1, the route follows a moderate snow and ice ridge before leading through a small ice serac and out onto a broad plateau. Camp 2 is situated at 7,000m/23,000ft in a ‘football field’ looking up at the summit region. From Camp 2, a 30-degree snow climb leads directly up to Camp 3 at 7,400m/24,300ft.

The summit climb from Camp 3 will take around 12 hours return for most members and involves climbing...
through a short rock band just above the top camp before heading into an open couloir, which in turn leads to the summit plateau.

A small team of Sherpas will accompany the expedition to provide the real ‘carrying power’ and ensure the high camps are well stocked for the summit climb. The climbing plan involves several trips up the mountain as far as Camp 2 for acclimatisation, punctuated by rest days at Base Camp.

The summit climb will take place at the end of September/early October during the best weather window. Two bottles of oxygen will be available for each member for the summit climb. All members will be accompanied by guides and Sherpas during the summit day.

THE ADVENTURE CONSULTANTS TEAM

LOGISTICS

The 2021 expedition is being organised by Guy Cotter, the director of Adventure Consultants and a veteran of Himalayan expedition guiding and organisation. With technology constantly evolving, Adventure Consultants have kept abreast of all the new techniques and equipment advancements—encompassing the latest in weather forecasting facilities, equipment innovations and communications systems. An 8,000m peak is not the place to be with an organisation that is ‘learning the ropes’, there is too much at stake for that. Adventure Consultants expedition staff, along with the operations and logistics team at the head office in New Zealand, provide the highest level of backup and support to the climbing team to maximise your chances of success. This is coupled with a very strong expedition guiding team and Sherpa contingent, who as you will come to see are second-to-none in the industry.

EXPEDITION LEADER

The expedition leader for our 2021 expedition is Dean Staples. Dean is a long-time AC guide, leading both international expeditions and New Zealand mountaineering ascents and courses. A multi-talented IFMGA guide with over two decades of guiding experience, Dean is super friendly, with great patience and leadership skills.

Among a multitude of climbing achievements, Dean currently shares the record for Everest summits by a New Zealander, with a total of 9, and has guided on a number of 8,000m peaks including Lhotse, Dhaulagiri, Manaslu, Shishapangma and Cho Oyu.
SHERPAS

Our Sherpa team has dozens of 8,000m summits between them. Da Jangbu Sherpa is our Expedition and Climbing Sirdar and has summited Everest an impressive 13 times, bringing with him considerable knowledge and experience. Due to his leadership, we have a legendary group of Climbing Sherpas who operate in a harmonious atmosphere of cooperation and commitment to the expedition and its members. Our group of Climbing Sherpas is enthusiastic, motivated and regarded as the strongest and most cohesive group of Sherpas in the Himalayas. It is indicative of the reputation that our Sherpa team has earned—that Sherpas from other expeditions enthusiastically pursue a future position with the Adventure Consultants team.

Our cooking staff are very well known for the quality of the cuisine they produce and are coveted by other team leaders due to the reputation they have established. We have been developing the personnel within our Sherpa team for 25 years and they are an integral part of the Adventure Consultants team.

EXPEDITION MEMBERS

We get a wide range of experience levels and nationalities on our expeditions and our planning and logistics are geared to accommodate this. People without a lot of high altitude experience often experience trepidation about their performance before a trip and the only way to find out how you will perform is by going to altitude. Increasingly we find that accomplished high altitude climbers are using our services, so they can concentrate on their sponsorships rather than organising private expeditions.

We recommend the best approach for aspiring high altitude climbers is to climb gradually higher peaks throughout your career, so you can adjust to the requirements of altitude. However, anyone who is a strong and active mountaineer will most probably experience few problems at altitude under our supervision.

PREREQUISITE EXPERIENCE

There is no definite measure for assessing the required skill level to climb Cho Oyu, so we prefer to discuss this on an individual basis. However, there are some broad guidelines that can be applied from the outset.

A successful team member will have been visiting the mountains for at least 3 seasons and made ascents on peaks of 6,000m to 7,000m/20,000ft to 22,966ft.
It is quite common for members to have previously climbed Denali in Alaska, Aconcagua in South America or various Mexican volcanoes as training for Cho Oyu. They will be familiar with crevasse travel techniques and have a good overall standard of fitness. Age itself is no barrier, to date, we have succeeded on Himalayan trips with members aged from 22 to 65 years of age.

A fierce determination and a burning desire to climb the mountain are essential prerequisites for this expedition. The guides and other expedition staff will provide the leadership, tactics and overall decision-making required during the climb, but still, you will have to physically put one foot in front of the other to climb to the top and back.

**TEAM SIZE**

The team will have a minimum size of 5 members and 1 guide and a maximum size of 12 members and 3 guides.

A team of between 3–6 climbing Sherpas will carry loads and support the summit climb and we will have a cook at Base Camp.

## ITINERARY

**Dates:** August 30 to October 12, 2021

Following is an ideal itinerary for our Cho Oyu Expedition:

<table>
<thead>
<tr>
<th>Date</th>
<th>Activity</th>
<th>Altitude (m/ft)</th>
</tr>
</thead>
<tbody>
<tr>
<td>30 August</td>
<td>Arrive Kathmandu, Nepal</td>
<td></td>
</tr>
<tr>
<td>31 August</td>
<td>Gear checks and briefing, obtain Tibet Travel Permit, sightseeing in Kathmandu</td>
<td></td>
</tr>
<tr>
<td>2 September</td>
<td>Fly to Lhasa, Tibet (3,650/11,975ft)</td>
<td></td>
</tr>
<tr>
<td>3 September</td>
<td>Sightseeing in Lhasa</td>
<td></td>
</tr>
<tr>
<td>4 September</td>
<td>Drive to Shigatse (3,800/12,470ft)</td>
<td></td>
</tr>
<tr>
<td>5 September</td>
<td>Drive to Tingri (4,350/14,270ft)</td>
<td></td>
</tr>
<tr>
<td>6 September</td>
<td>Rest day in Tingri</td>
<td></td>
</tr>
<tr>
<td>7 September</td>
<td>Drive to Road End Base Camp (4,800/15,750ft)</td>
<td></td>
</tr>
<tr>
<td>8 September</td>
<td>Rest/acclimatisation at road end</td>
<td></td>
</tr>
<tr>
<td>9–10 September</td>
<td></td>
<td></td>
</tr>
<tr>
<td>11 September</td>
<td>Trek to Valley Camp (5,300/17,390ft)</td>
<td></td>
</tr>
<tr>
<td>12 September</td>
<td>Trek to Base Camp (5,650/18,540ft)</td>
<td></td>
</tr>
<tr>
<td>13–14 September</td>
<td>Rest at Base Camp and organise equipment</td>
<td></td>
</tr>
<tr>
<td>15–28 September</td>
<td>Establish high camps and acclimatise</td>
<td></td>
</tr>
<tr>
<td>29 September to 6 October</td>
<td></td>
<td></td>
</tr>
<tr>
<td>7 October</td>
<td>Return to Base Camp</td>
<td></td>
</tr>
<tr>
<td>8 October</td>
<td>Pack equipment</td>
<td></td>
</tr>
<tr>
<td>9 October</td>
<td>Trek back to road end and drive to Tingri</td>
<td></td>
</tr>
<tr>
<td>10 October</td>
<td>Drive to Nepalese border</td>
<td></td>
</tr>
<tr>
<td>11 October</td>
<td>Drive to Kathmandu</td>
<td></td>
</tr>
<tr>
<td>12 October</td>
<td>Depart from Kathmandu</td>
<td></td>
</tr>
</tbody>
</table>

**THE ADVANTAGES OF CLIMBING WITH ADVENTURE CONSULTANTS**

Adventure Consultants is renowned for the quality of its service and strategy applied to high altitude expedition climbing. Our reputation is attributed to meticulous planning and experienced logistics coordination. We have a philosophy of investing in every expedition to offer our climbers the best possible chance of success.

We employ strong and specialised Expedition leaders and support staff, who are some of the most pre-eminent in the industry. We pride ourselves on operating with small teams, the best back-up and support available. This includes nutritious and ample quantities of food, comfortable Base Camp facilities, reliable communications systems and the necessary medical back up.
Many of our expedition members come to us because they have seen us in action on a previous trip and decide to opt for our level of service and proven experience. Others return because they know we do our very best to make expeditions safe and successful.

**MAX OX**

Experience tells us that a high degree of Sherpa support, coupled with maximum oxygen flow rates, greatly increases the rate of success for our team members. With this option, you receive oxygen at a higher flow rate on climbing days, allowing you to completely focus on summitting. The results speak for themselves. With the ‘Max Ox’ option, climbers have reported having better energy levels, a better appetite, more warmth, a higher degree of strength and greater enjoyment on summit day than those without. They also enjoy a higher rate of success!

**OTHER SERVICES**

**ADDITIONAL SHERPA SUPPORT**

We offer a service giving members the option to have their gear carried on ‘camp moving’ days, so all you have to carry is your jacket and water bottle and items required for the day. This option is popular with those who have difficulty recovering after a carrying a heavy load at altitude.

**PERSONAL SHERPA**

This option provides you with the assistance of a very experienced and dedicated Sherpa who will support you for the duration of the expedition above Base Camp. Your Personal Sherpa will climb with you each day while you are climbing on the mountain as your climbing partner and generally assist you throughout the expedition all the way to the summit. When on the mountain, you would share a tent with your Personal Sherpa and he would supervise cooking duties. Our Sherpa guides are very experienced with multiple ascents of Everest and other high peaks under their belts, and are friendly and supportive companions along the way!

For more information on these additional services, please contact our office for details.

**VISAS**

Expedition members will be required to obtain visas for both Nepal and China.

Nepalese multiple entry visa is easily procured at Kathmandu Airport upon arrival. Visa application forms can be downloaded off the internet and we will also send you a copy.

Chinese Embassies will not issue individual visas for
Tibet without the proper paperwork from a Tibet-based travel agency, which in our case is the Tibetan Mountaineering Association. For this reason, it is easier to obtain your Chinese visa from the Chinese Embassy in Kathmandu once you have arrived. Your guide and our agent in Kathmandu will assist members with this task on Day 2 of the expedition in Kathmandu.

FLIGHT INFORMATION

Regular flights operate into Kathmandu via Bangkok, Hong Kong, Singapore, Doha and Delhi.

Please note that delays can occur, therefore it is important to allow some flexibility with airline travel arrangements at the end of the expedition and ensure that the ticket you purchase can have changes made to it in case of delays. Tickets purchased over the internet and using air miles are often non-transferable, so please be aware of this.

COMMUNICATIONS

The expedition will be equipped with portable Thuraya satellite phone systems for the duration of the expedition in order to provide reliable email and voice communication globally for business, media or personal use. Limited satellite phone time can be purchased at the rate of US$3.00 per minute. Please contact our office for details.

FOOD

Food will be of the highest standard possible, given the remoteness of the situation. Please inform us if you have any special dietary requirements. Our Base Camp set-up and ample, nutritious meals are always the envy of other groups on the mountain!

EQUIPMENT LIST & REFERENCE NOTES

Expedition members will be sent a list detailing all the necessary clothing and equipment to be individually procured, contained within a set of Expedition Reference Notes. These notes provide extensive information on everything from suggestions of what type of camera to bring to training advice for your expedition preparation.
MEDICAL EXAMINATION & INSURANCE

Expedition members will be provided with a medical questionnaire by the expedition doctor and asked to visit their family physician to receive a full medical examination. This information will be sighted only by the Expedition Doctor and Expedition Leader and treated with full confidentiality. Advice on immunisations will be provided at this time. We also require members to have rescue insurance and we will consult with individual team members as to your insurance needs and solutions for coverage.

PASSPORT PHOTOGRAPHS

Expedition members will need to provide a digital passport photograph for climbing and trekking permits and a copy of their passport biodata page.

THE EXPEDITION FEE

The cost of the expedition, ex Kathmandu, Nepal is US$33,750.

Note our pricing for 2021 includes the fee structure from Chinese authorities for operating high altitude expeditions in China.

This is an inclusive cost and covers the following:

- Chinese government royalty fees
- All expedition organisational requirements
- All climbing and trekking permits
- Land transport in Tibet and Nepal
- Flight to Lhasa from Kathmandu
- All team equipment and two and a half bottles of oxygen
- All expedition staff, including Western guides at 1:5 ratio and Sherpa support
- All food after departing Kathmandu and before arriving back in Kathmandu
- All supplies necessary to make a safe and strong bid for the summit
- Medical kit
- Internet dispatch page that is updated daily by guides
- dZi Foundation support for their ‘Revitalize a Village’ programme—likely to include support for a Nepalese child’s education for a year
The expedition fee does not include the following:

- Air travel to and from Nepal and any associated airport taxes
- Entry visa for Nepal and China
- The ‘Max Ox’ option
- Hotel accommodation and meals in Kathmandu
- Purchases of bottled water, gifts, alcohol, showers and laundry (we supply boiled/treated water for drinking)
- Personal clothing and equipment
- Excess baggage charges
- Any costs associated with early departure from the expedition
- Personal insurance/trip cancellation insurance/medical evacuation insurance
- Actual satellite phone calls
- Gratuities for guides and Sherpa staff

NOTE: All bank transfer charges are for the remitter’s account.

We can also accept your deposit and balance payment by credit card (Visa, Mastercard and Amex) plus a 3% card charge.

DEPOSIT

A non-refundable deposit of US$5,000 is payable to secure a place on the expedition.

BALANCE

The balance is payable 90 days prior to trip commencement.

CANCELLATION & REFUND POLICY

Once you have paid your deposit your trip is confirmed, subject to payment of the balance of fees owing 90 days prior to your trip commencement date. An expedition member may cancel their participation on the following basis:

- Cancellations outside of 90 days will result in the loss of the trip deposit.
- For cancellations made within 90 days of the trip commencement date we reserve the right to retain 50% of the balance payment fee.
- For cancellations within 60 days of the departure date a cancellation fee of 100% of the full fee applies.

We strongly recommend you take out trip cancellation insurance via your travel agent if you wish to be covered against cancellation due to medical or personal reasons.
HOW TO JOIN THIS EXPEDITION

If you would like to join the 2021 Cho Oyu expedition, please complete our online booking form and forward your deposit payment at https://www.adventureconsultants.com/expeditions/8000m-peaks/cho-oyu/book-now.
