Welcome to the world of mountaineering! Our Private Instruction Courses are just that—instruction courses where you have the flexibility in choosing the course duration and dates which suit you best. You can outline the type of skills you would like to achieve in line with your future climbing objectives and, for the seasoned climber, you can upskill yourself in your chosen field from one of our specialist professional guides.

You can join as an individual for 1:1 personalised instruction or put your own group of like-minded companions together. A maximum 1:4 guide to climber ratio applies.

The course can be structured to prepare you for anything, from ascents of New Zealand’s classic peaks through to joining one of our high-altitude climbing expeditions. Our courses can provide you with an introduction to the essential mountaineering skills or a greater confidence in the judgment and decision-making aspects of alpine climbing.

We offer 6–10 day Private Instruction Courses (PICs) and can arrange a longer duration course on request. You can schedule your PIC with us any time of the year.

The austral summer climbing season is from November to April, when the days are longer and weather and route conditions are more predictable. The winter climbing season runs from July through September.

If your focus is on joining one of our high altitude expeditions in the future, we recommend training in lower altitude mountain ranges such as the Southern Alps of New Zealand, where there are many peaks of around only 3,000m/9,850ft in height, but similar in ruggedness and valley-to-summit altitude gains as the higher peaks of the Himalaya. This allows you to concentrate on the technical skills required for successful alpine climbing. We find that without the hassles of altitude slowing you down, you can get ahead so much more quickly and you can concentrate on your altitude training further down the line.
COURSE OBJECTIVE

Our objective is to pass on the skills, which have made us successful in our own international climbing careers. The most important attributes being:

- A solid climbing standard and mountain awareness
- Sound judgement of your own ability
- Good planning and preparation skills
- Good decision making

SKILLS COVERED

We endeavour to cover the following skills during the course, however, factors such as weather and climbing conditions may dictate that some skills are not covered in full. On the Private Instruction Course, you may deem that the course focuses primarily on one or two aspects of climbing so you can increase your skill set in that area.

- Basic snow and ice craft
- Mountain first aid and health
- Rope skills applicable to alpine climbing
- Camp management
- Glacier travel and self-rescue skills
- Route finding and navigation
- Weather analysis
- Emergency shelters
- Alpine rock climbing skills
- Preparation for high altitude expedition climbing

ADVICES OF JOINING AN ADVENTURE CONSULTANTS COURSE

With our headquarters at Lake Wanaka, we have the distinct advantage of short travel times to seek out the venues with the best weather and conditions. We have the options of the Westland, Aoraki Mount Cook and Aspiring National Parks, plus the Remarkables mountain region with its alpine rock, in addition to the popular crags around Wanaka itself. This enables us to get you into the most appropriate location much faster and gives a wider choice of venues.

This course has been designed by Guy Cotter, who has been climbing for 40 years. Additional to his extensive record in New Zealand, his career has included numerous high-altitude expeditions, including five ascents of Mount Everest and six other 8,000m peaks.

As an IFMGA Guide since 1991, Guy Cotter recognises the need for people to learn about ‘climbing’, and not just be taught the technical skills in isolation. This is not an easy task and requires experienced and highly skilled guides with good instructional skills to be achieved.
The guides at Adventure Consultants are recognised as amongst the best in the industry with the ability to help you get the most from your time with us.

HOW THE COURSE OPERATES

We spend as much time in the mountains as possible climbing peaks whilst developing skills. Initially, you will develop and reinforce your skills in a contained environment and move on to more challenging routes and terrain during the course.

Experiential learning is a major factor in becoming a competent mountaineer. The emphasis of the course is on safe application of skill development. We will introduce skills through climbing peaks and increase the intensity of the program at your pace.

Alpine climbing can involve long days with early starts in order to gain a summit and descend before nightfall. There are times when the weather may be rough and there can be periods of discomfort. We manage this through consultation with the group members and our objectives are dictated by the strength and motivation of the whole group.

You may have the opportunity to develop additional skills before the course commences. Rope skills can be learned through local alpine clubs or climbing gyms. Previous rock or alpine climbing experience will allow you to gain even more from the course.

COURSE VENUE

We operate our courses in the Mount Aspiring, Aoraki Mount Cook or Westland National Parks depending on factors such as weather and snow conditions, hut occupancy rates and the best climbing conditions at the time. The course will commence and finish at our Wanaka office.

CLIMBING SEASON

We guide the high peaks all year as conditions allow, although our main climbing season is from November through to April. In November and December, we can expect more snow cover on the routes, and as temperatures warm up into the summer months of January and February, we traditionally experience more settled weather and mixed climbing conditions (snow, ice and rock).
From March through April, late summer conditions exist which result in a combination of rock and ice routes. However, from May onwards cooling temperatures can bring snow falls to the Alps and the days begin to get noticeably shorter.

We specialise in winter climbing and ice climbing through the months of July to September and whilst the days are shorter, the mountains are virtually abandoned. Our guides are also experienced ski guides so enquire about combining ski touring with your course!

WEATHER

New Zealand has a maritime climate and the weather is always a consideration in the high mountains. For the climbing season (November to April) the average temperature ranges from around -5°C up to 20°C. During the winter this can drop to -10°C or -15°C. There is no heating source in the huts, so you need to be prepared for cold overnight temperatures.

In the event conditions are not suitable to enter the mountains at the start of the trip, we can delay for up to two days subject to your guide’s schedule. We recommend you allow some flexibility with your travel arrangements to create this advantage. When booking your trip, please specify the dates you are available.

ACCOMMODATION DURING THE COURSE

Adventure Consultants will provide your accommodation while the course is running which is from 9.00am on Day 1 until 5.00pm on the last day of your course.

All food and accommodation outside this time will be at your expense. When in the mountains you will stay in mountain huts with shared bunkrooms and basic facilities. There are no single rooms available. Some mountain nights will be spent in tents or bivvies where you will be more exposed to the elements but the final decision on this will be made by the guides after weighing up all the factors.

For overnights in Fox Glacier and Aoraki Mount Cook villages, you will be accommodated in dormitory-style Alpine Club huts and in Wanaka, dormitory style backpackers with shared bathroom facilities. You may decide to upgrade to single accommodation in Wanaka at your own expense, should you require.

GROUND & AIR TRANSPORT

Return ground transport from Wanaka to the course venue is included in the course fee. In addition to this, a bonus of climbing with Adventure Consultants is that we also include helicopter/ski-plane access and egress flights to the alpine region.

This allows your course to spend the maximum amount of time above the snow line learning skills. Aircraft access also alleviates long and tiring walks into the alpine region with heavy packs. It allows you to start the course fresh, gain more valuable instructional time and take advantage of fine weather periods.

We utilise helicopters or ski planes depending on availability and the region we operate in.
EQUIPMENT

Climbing in the Southern Alps requires the highest quality clothing and equipment due to the potential extremes of weather conditions. Our focus is on having the essential clothing and equipment while keeping your pack as light as possible.

Your guide will go through an equipment checklist with you at the beginning of your trip. Actual equipment taken may vary subject to seasonal weather and route conditions. All group equipment, including ropes and cooking equipment, will be provided by Adventure Consultants.

We can offer secure storage at our office for your luggage and valuables during the trip.

GUIDE BOOKS & MAPS

Included in your Private Instruction Course fee is a complimentary copy of A Climbers Guide to New Zealand Mountaineering Techniques. Written by Adventure Consultants guides Guy Cotter, Dean Staples and Mark Sedon, the ‘ACG’ was published specifically as reference material which you will find useful before, during and long after your course has finished.

The Aoraki Tai Poutini—A Guide for Mountaineers by Rob Frost and The Mount Aspiring Region: A Guide for Mountaineers by Allan Uren and Mark Watson offer a good insight into the variety of peaks and routes in these respective areas.

It is useful to have your own map for navigation exercises. Your guide will advise you of the relevant 1:50,000 topographic maps required when the course begins. The training area for your PIC will generally only be decided just prior to course commencement date to ensure the most favourable area is utilised. The above books and maps can be purchased from our office in Wanaka.

COMMUNICATIONS & MESSAGES

Our guides are in radio/cell phone/satellite phone communication with our operations base and Department of Conservation headquarters throughout the trip. This assists us with schedule and weather forecast updates, helicopter coordination and safety back up. Urgent messages can be relayed via our office to the field if required. Each party carries a locator beacon for additional security.
FITNESS & HEALTH

To make the most of your climbing experience, we encourage you to work on your fitness prior to the trip. You will find that training with a 20kg/44lb+ pack on is the best preparation for the mountains, with the aim of getting ‘pack fit’ and building your endurance. Your guide places special focus on fitness levels and will regulate the pace accordingly.

Our registration form requests that you advise us of any medical problems you may have and if you are on any medication. Any information you supply will be treated as confidential.

FOOD

We place emphasis on providing nutritious meals and a good supply of snack food throughout the trip. If you have any special dietary requirements, please advise us at the time of registration.

INSURANCE

We strongly recommend that you take out trip cancellation and travel insurance to protect yourself in the case of injury or mishap prior to/whilst on our trips. Whilst our focus is on safety and our track record supports this, the mountains do have hazards and there is always the potential for mishap.

If you were injured whilst on the trip, the New Zealand Accident Compensation Commission (ACC) will pay rescue costs upon review of the circumstances and authorisation by the Police. This service may not apply to evacuation costs for medical conditions. You may not be eligible for bulk compensation payments from ACC and you are responsible for any medical or evacuation costs beyond the cover provided by ACC.

TRAVEL & ACCOMMODATION

We commence the course from our base in Wanaka.

Air New Zealand and Qantas/Jetstar provide daily flights from Christchurch, Auckland and Wellington to neighbouring Queenstown. There are also direct international flights from most major Australian cities to Queenstown.

A shuttle service operates several times daily between Queenstown and Wanaka (approximately one hour driving time and at a cost of $35 each way), check https://www.ritchies.co.nz/wanaka for details.

Bus services also operate daily between Christchurch and Wanaka (approximately 6 hours travel time).

Wanaka has a range of accommodation from backpackers to youth hostels, motels, hotels and luxury lodges.

We are happy to assist with your accommodation and bus transfer arrangements.

HOW TO FIND US

Our office is situated in the Wanaka town centre at 20 Brownston Street.

The course begins at 9.00 am on Day 1 at our office at 20 Brownston Street, Wanaka. You will need to arrive in town the night prior to the course commencing. Please give us a call to confirm your arrival in town.
You will find some of New Zealand's best sport climbing in the Matukituki Valley, the gateway to the Mount Aspiring region and just a 10-minute drive from our offices. Two ski resorts provide plentiful winter activity and all-year-round fishing, boating and numerous other recreational activities abound.

**COURSE FEE**

All prices listed are per person and in NZ Dollars.
