Antarctica has held the imagination of the entire world for over two centuries, yet the allure of this remote continent has not diminished. With huge advances in modern-day technology, travel to any part of the world seems to be considered a ‘fait accompli’. Yet Antarctica still holds a sense of being impenetrable, a place where man has not tamed nature.

Antarctica is a place of adventure. A frontier where we are far removed from our normal ‘safety net’ and where we need to rely on our own resources and decision making to survive. It is in these environments that we are truly in touch with nature, where we can embark on a journey of discovery to remote and untouched places.

In the Southern Hemisphere summer, when the sun is in the sky 24 hours each day, Adventure Consultants is operating an expedition on skis across the vast expanse of Antarctica from the edge of the continent to the South Pole. This overland journey takes some 62 days and will be both challenging and exhilarating, a journey that will give us a lifetime of memories.

How the Expedition Operates

Getting Started

The team will meet in Punta Arenas on the southern tip of Chile. After food and equipment preparations are finalised, we will fly to an ice runway on the Antarctic Continent which is a flight of around four hours. This landing site is known as Union Glacier and is the base for our air transport provided by Antarctic Logistics Expeditions (ALE), a company with many experience in providing air support on the Antarctic Continent.

The Journey Begins

After final preparations and fine-tuning at Union Glacier, we fly by ski-plane to the Hercules Inlet.
This is the start of our trek south. Skis will be worn for the entirety of the expedition (with a few possible exceptions) which will be the telemark type with ‘skins’ on the base for traction. When towing sleds, skins are preferable to the waxing method used for cross-country skiing.

This is where the adventure really begins. The plane departs and we are left to the silence of the Antarctic, and the huge task of walking 1,170km/730 miles over the next two months to the South Pole!

We quickly settle into a routine of 1 hour marches with short breaks in-between. Now and again, a rocky summit adds some contrast to the landscape as we reach our halfway point at the Thiel Mountains, approximately 25 days into the journey. Navigation will be accomplished using GPS navigation equipment to ensure an accurate route to the pole.

The land between the Thiel Mountains and the South Pole consists of mostly flat terrain, yet we are eventually climbing to over 2,700m/9,000ft, the height of the pole itself. For the most part, the snow will be smooth and flat interspersed with extensive wind-affected sastrugi snowfields.

We pass several mountain ranges along the way and navigate through only one major crevasse field for which we have a proven GPS plan. The terrain eventually climbs gradually onto the polar plateau for the final leg through to the South Pole itself. On arrival at the pole and after the ensuing photo-fest, an aircraft will be dispatched to pick us up and bring us back to Union Glacier for our return to Chile.

DAILY ROUTINE ON THE EXPEDITION

The expedition team members share tents and the chores of cooking. The coldest part of the day will be in the breakdown of the camp as we pack sleds and begin the daily trek. Each day we will move for 8-10 hours with regular rests for food and fluid intake. Once we reach our camping destination for the night, we set up the tents and build snow walls to protect the tents from wind.

TEMPERATURE

The effective temperature is defined by the strength of the wind as we are battling against the katabatic winds descending from the polar plateau. Temperatures will be in the range of –40°C/–40°F to 0°C/32°F. The temperatures will rise during the season but near the end of the expedition when we gain higher altitudes near the pole, we will have colder temperatures. Ultimately, a lot will depend on the season and the general weather patterns. Weather analysis will be provided by experts in polar meteorology, which will assist us in being forewarned of major weather systems.

TEAM SIZE

The team will have a minimum size of 4 members and 1 guide and a maximum size of 8 members and 2 guides.
PREREQUISITE EXPERIENCE

The South Pole All the Way expedition is for the most dedicated of polar travellers. You need significant skiing and cold weather camping experience, along with a very high degree of fitness. Typically, candidates will have participated in cold weather ski expeditions of some length such as North Pole or South Pole Last Degree expeditions, or the Greenland Crossing.

A high degree of discipline and diligence must be maintained throughout the expedition, skiing for 8-10 hours per day for 45-55 days in a row, with team members helping to set up camp and prepare meals. Rigorous daily training must be undertaken for 3-6 months prior to the expedition start.

We require all participants to submit a résumé of their ski expedition experience so that we can make appropriate suggestions for any potential further training and ensure you get the most out of your expedition.

EXPEDITION DATES & ITINERARY

**Dates:** November 13, 2019 to January 15, 2020

**NOTE:** Dates are subject to change.

ADVANTAGES OF JOINING ADVENTURE CONSULTANTS ON AN EXPEDITION

Adventure Consultants is renowned for the quality of its service and strategy applied to high altitude expedition climbing and polar travel. Our reputation is attributed to meticulous planning and experienced logistics coordination. We have a philosophy of investing in every expedition to offer our climbers the best possible chance of success.

We employ strong, specialised and highly experienced Expedition Leaders and support staff, who are some of the most pre-eminent in the industry. We pride ourselves on operating with small teams, the best back-up and support available. This includes nutritious and ample quantities of food, comfortable base camp facilities, reliable communications systems and the necessary medical back up.

Many of our expedition members come to us because they have seen us in action on a previous trip and decide to opt for our level of service and proven experience. Others return because they know we do our very best to make expeditions safe and successful.

SAFETY & COMMUNICATIONS

We carry the latest in satellite communication equipment, facilitating good contact with the outside world. This also improves safety in that we have instant communications with ALE in the unlikely event an evacuation is required. It is possible for you to utilise our equipment or you may bring your own, but we request you confirm with us to establish power requirements can be met.

REScue CONsiderations

It is possible for evacuations to take place along the route, if necessary. However, there are areas with sufficient sastrugi to make aircraft landings impossible and anyone needing evacuation would need to be transported to a sastrugi free area for a pick-up, which may take days of travel. For this reason, expedition members need to fully understand that evacuation is not an ‘on demand’ service and weather conditions can preclude flights for days or even weeks at a time. The best way to protect oneself against problems of this nature is to be fully prepared, both physically and mentally for an adventure of this magnitude. Additionally, an aircraft rescue can be very expensive and we require expedition members to be insured against this possibility.

Equipment

EQUIPMENT LIST

We supply all team equipment, including sleds, tents, stoves, pots, food and fuel, ropes and sled harnesses, GPS and telecommunication equipment.

You will need to supply all your own personal equipment, including clothing, sleeping gear and ski equipment. If you wish, we can assist with the purchase of equipment and clothing suitable to the expedition. A full equipment list will be sent to you upon confirmation of booking.

CLOTHING

For most of the trek members need only be clad in fleece clothing with windproof shells.
Warm expedition mittens and hats will be necessary, in addition to a facemask and fur ruff around the jacket hood to keep wind and blowing snow at bay. Lightweight down clothing will help members endure the cold starts and provide additional warmth (if needed) in the sleeping bag.

**WHAT WILL I CARRY?**

Each member will have a high tech sled built specifically for Arctic/Antarctic use. These will be loaded with personal gear as well as a share of the expedition equipment. We utilise three pre-placed food caches enroute to minimise the weight of our sleds. Each sled is estimated to weigh around 50-60kg/110-130lbs at the beginning of the phase, reducing over the duration of the expedition as food and fuel is consumed. The complete load is carried on the sled rather than in a backpack.

**VISA REQUIREMENTS**

Generally entry visas are not required for travellers staying less than three months in Chile, but please check with your travel agent. The expedition ski traverse permits for travel in Antarctica are a separate matter dealt with by Adventure Consultants.

**MEDICAL EXAMINATION**

Expedition members will be provided with pre-trip medical advice and a medical questionnaire. You will be asked to visit your family physician and receive a full medical examination. This information will be sighted only by the Expedition Leader and our medical adviser and treated with full confidentiality.

**DOCUMENTATION & PHOTOGRAPHS**

Expedition members will need to provide 4 passport photographs for the various permits and a copy of their passport biodata page.

**THE EXPEDITION FEE**

The cost of the expedition is: US$72,500 per person ex Punta Arenas, Chile.

This will be an inclusive cost and covers the following:

- Adventure Consultants polar guide(s)
- All expedition organisation requirements
- Transport within Antarctica where applicable
• Food and tented accommodation ex Punta Arenas (twin share)
• Expedition food and equipment
• Tents, stoves, sleds & harness
• Dedicated dispatch webpage updated throughout the trip that you can post onto your own website for friends & family to follow
• Transport of 30kg/66lbs of personal equipment to Union Glacier

The expedition fee does not include the following:

• Air travel to and from Punta Arenas, Chile
• Personal clothing and equipment
• Personal travel, medical, rescue insurance
• Hotel, meals and personal expenses in Punta Arenas
• Personal insurance – full travel, medical and rescue insurance is required as well as personal trip cancellation insurance. Medical evacuation insurance cover of US $300,000 is required
• Excess baggage transportation charges of US$77 per kg for any baggage exceeding the personal equipment weight limit
• Cost of satellite telephone calls whilst on expedition

NOTE: Minimum numbers apply and prices are subject to change.

PAYMENT DETAILS

All payments should be made by bank transfer to the following bank and account:

Bank of New Zealand
Offshore Branch
42 Willis Street
Spark Central
Wellington
New Zealand

for the account of Adventure Consultants Limited

Account Number: 1000-594771-0000
Account Type: US Dollars
Swift Address: BKNZNZ22

NOTE: All bank transfer charges are for the remitter’s account.

We can also accept your deposit and balance payment by credit card (Visa, Mastercard, Amex) plus a 3% credit card fee.
DEPOSIT
A non-refundable deposit of US$15,000 is payable to secure a place on the expedition.

BALANCE PAYMENT
The balance is payable 120 days prior to the commencement of the trip.

CANCELLATION & REFUND POLICY
An expedition member may cancel their participation on the following basis:

- Cancellations outside of 120 days of the departure date incur the loss of the deposit payment.
- Cancellations between 119–90 days of the departure date incur 50% of balance payment.
- For cancellation made within 89 days of the departure date there will be no refunds.

We strongly recommend you take out trip cancellation insurance via your travel agent if you wish to be covered against cancellation due to medical or personal reasons.

HOW TO JOIN THIS EXPEDITION
If you would like to join one of our South Pole All the Way Expeditions, please feel free to book online booking at https://www.adventureconsultants.com/expeditions/antarctica/south-pole-all-the-way/book-now and return your completed booking form to us with a deposit along with your climbing and polar travel résumé.
